A CHAMPIONSHIP WIN WITH DONALDSON FILTERS

News Release

SRZ Racing has come away with the Championship win in the 2013 Australian Super Truck Sprint Series. Yet in dramatic fashion, it almost wasn't to be.

The final round at Wakefield Park kicked off with practice on Friday, during which the team produced some acceptable lap times in the very low 1.17's. Saturday's qualifying was reduced to

the main qualifying session. With only one opportunity to get it right Steven Zammit snatched pole position, which was a great start to the weekend.

Steven Zammit went straight to the lead in race one on Saturday, however three laps into the race it all went sour, engine problems set in and the engine stalled mid race. The team needed to finish at least 6 laps to receive points, after several attempts to start the engine they finally got it going. Unfortunately it was short lived, disaster struck on the last corner of the last lap when the engine blew and the truck simply rolled across the finish line. Good enough for 7 points.

Needless to say it was a long night for the SRZ Racing team rebuilding the engine. Thankfully, with help from Fate Racing, it was running again about 2.30am Sunday.

Warm up did not go well on Sunday. The engine was producing a miss-fire, when all attempts to fix the problem were futile the team quickly came to the conclusion they had to run with it, the plan now was to just to finish each race. With 2 races to go Steven Zammit still had an 18 point lead, heading into race three Steven decided the truck could handle a quicker pace, making this one of the best races of the weekend. After a nail-biting weekend for the team, coming in at third place in this race won Steven Zammit enough points to hand the team the Championship.

Donaldson Australasia has been proud to be a major sponsor of SRZ Racing for the 2013 season. We congratulate Charlie, Steven and the SRZ Racing team on their thrilling, 2013 Championship win.
